Lisnin.io

Your Entire Music Career, One Platform

The SaaS wedge into the capital market for independent music.

PRE-SEED ASK

$250K USD

SAFE Note · $2.75M Post-Money Cap · Sept 2026 Launch

matthew@lisnin.io · lisnin.io · CBCA Corp., Milton, ON

80K+	$200K+	Month 7–8	5.3–9.4×
owned community · $0-CPA channel	transacted for artists pre-product	breakeven · ~1,140 subscribers	LTV:CAC, stress-tested at 5–9% churn

THE PROBLEM

5–7 disconnected tools. One artist paying for all of them.

36% of all music released is now fully independent, yet no single platform serves the complete career stack. Artists spend $400–500/yr on tools that never talk to each other — while $1B+ in publishing royalties goes unclaimed annually and no platform offers a path to fan capital.

THE SOLUTION

Lisnin replaces the stack with one subscription — from $50/yr.

150+ DSP distribution (0% commission, Dolby Atmos standard) · US + CA publishing admin · Earkitz website builder · 4,000+ industry contacts · Listening Party Bot · and a Rights Marketplace (Phase 2) where artists raise capital from fans.

THE FLYWHEEL — DISTRIBUTION IS THE FUNNEL. THE MARKETPLACE IS THE BUSINESS.

01 DISTRIBUTE — Releases go live on 150+ DSPs through the $50/yr wedge. →

02 VERIFY — Streaming & royalty data accrues natively on-platform. →

03 LIST — Verified data underwrites invite-only marketplace listings. →

04 RAISE — Fans buy fractional rights. Artists get capital. Lisnin earns 10% of GMV.

"Artists won't switch distributors to save $10 a year. They'll switch for access to capital." — eligibility requires distributing on Lisnin; capital-raising artists pull peers off incumbents.

MARKETPLACE PROOF — RUN MANUALLY, THREE TIMES

Andy Polk	180+ community buyers	**$53,000**
J-Minu$	120+ community buyers	**$45,000**
Moula 1st	30+ community buyers	**$10,000**

$200K+ raised across all campaigns — real dollars, real buyers, zero paid acquisition. Royal.io's 2024 exit vacated the category; Lisnin re-enters on Web2/Stripe rails with a proven buyer pool (Month 16).

TRACTION & VALIDATION

- **Top 10 of 10,000+** — Solana Grizzlython (Listening Party prototype)
- **24 Earkitz sites sold pre-platform** at $250 each — $6K revenue before launch
- **Partners:** Eveara (150+ DSPs) · Ajna Inc. (13+ engineers) · Wracket ($3.4M sync budgets)
- **Former Songtrust VP advising** on publishing ops & competitive strategy (confidential)
- **Accepted — Spring:Build accelerator**

GO-TO-MARKET

- **Community (LLC):** $0 CPA · 80K warm audience · 40–60 subs/mo
- **Paid social & search:** $27 blended CPA · 225–260 subs/mo at full deploy
- **Influencer (Yr 2):** $4.20 CAC · 6.4× better efficiency vs. paid
- **Ambassadors:** 10% recurring commission on referred subscriptions

~$47K **Launch Milestone #1:** 236 founding waitlist subscribers × $199 billed at launch against ~$5K spend (9.4×) — conservative CPA math; organic conversion is upside. We publish the result either way.

FINANCIAL HIGHLIGHTS (24-MONTH MODEL)

Blended ARPU	**$153/yr**
Blended paid CAC	**$27**
LTV:CAC — stress-tested (9% / 7% / 5% churn)	**5.3× / 6.7× / 9.4×**
Year 1 revenue → exit ARR run-rate	**~$175–195K → ~$350K**
Year 2 ARR + marketplace GMV	**~$1.0–1.1M + ~$380K**
Year 2 EBITDA	**+$300–380K**
Breakeven	**Month 7–8 · ~1,140 subs**

Six streams: subscriptions · publishing commissions (12–13% net via partner) · directory add-on · Listening Party (25% token share) · B2B seats · marketplace (10% GMV).

MARKET — SIZED BOTTOM-UP FROM ARTISTS WHO ALREADY PAY

People who have uploaded music to Spotify	**13M**
Independent artists in North America	**8.2M**
Artists already paying DistroKid $23–40/yr	**2M+**
Professional & aspiring-pro artists globally (Spotify est.)	**~250K**

Penetration math: the entire Year-2 target of 6,000 subscribers is **0.3% of artists already paying for distribution alone** — while Lisnin replaces a $400–500/yr stack from $50/yr. Rights investment adds a $5B+/yr pool growing 12%+.

WHY LISNIN WINS

- **80K pre-built community** — 4 years of trust and $200K+ transacted; can't be replicated with money
- **No rival bundles** distribution + pub admin + contacts + website builder + community in one
- **Asset-light publishing ops** — registration pipeline via established partner; nets 12–13% now, internalizes to full 15% at scale
- **Aligned sync incentive** — registered catalog → DISCO library → Wracket's $3.4M supervisor budgets
- **Distribution lock-in** — catalogs live on 150+ DSPs make leaving costly; Winamp (Euronext: ALWIN) validated the model in the EU at 500+ signups/day — the NA seat is open

Matthew St. Pierre
CEO & Co-Founder · 51% (+3.5% advisor pool held in trust)
8+ yrs across label founding, artist development, sync biz dev & web3 launches. Built the Lonely Listeners Club to 80K+ over 4 years, facilitating $200K+ raised for artists.

Vinay Singh
CTO & Co-Founder · 33%
Founder of Ajna Inc. — a 13+ engineer product studio. Deep SaaS architecture; brings a full development team to the cap table, cutting build cost and technical risk from Day 1.

Everton Lewis Jr.
Partnerships & Artist Relations · 12.5%
Founder of Wracket Music Supervision ($3.4M+ annual sync budgets); prev. Vice, Apple. Deep licensing and label relationships — priority placement access from launch day.
